Student Guide

THE PLANNER

FOR STUDENTS

- A handy tool to keep with you at school and at home.
- A work tool in which to note your homework, test dates and anything else that you must remember.
- A guide which helps you organize your work, study more effectively and obtain better results.
- A memory jogger which enables you to save valuable time.

FOR PARENTS

- A simple and effective means of communication between school and home.
- A way to follow your child's progress on a daily basis.
- A channel for improved dialogue between parent and child.

STUDY TIPS

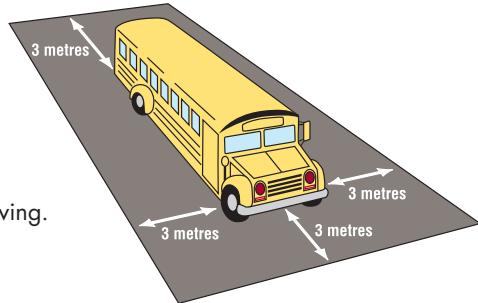

- Studying at the same location helps improve concentration and output.
- Studying at the same time each day makes you more inclined to work and concentrate.
- Lack of distractions (radio, television, etc.) near the work area helps keep your mind on your work.
- Studying in a cool and well-ventilated room stimulates brain activity.
- A well-lit room reduces fatigue and the risk of eyestrain.
- Before starting work on a subject, put all the materials you will need on your desk.
- Studying in bed or slouched in a comfortable armchair leads to drowsiness and hampers concentration.

- Reading important passages of a text aloud to yourself helps you to remember its content.
- Asking yourself questions—or having someone else ask them—about the material studied lets you check how much you have learned.
- Taking a few minutes' break after studying a subject helps you to remember it better.
- Reviewing in the evening material learned during the day enables you to absorb it more thoroughly.
- Peace and quiet are essential to effective study.

MAIN SAFETY RULES IN THE BUS

Before Boarding the Bus

- I must be punctual and reach the bus stop before the arrival of the school bus.
- While waiting for the bus, I never stand or play in the street.
- If I must cross the street to board the bus, I wait until the bus comes to the bus stop, the flashing lights are on, and the bus driver directs me to cross and board the bus.
- I stay away from the school bus danger zone. I never go back to the bus after getting off. If I drop something near or under the bus, I leave it there.
- I line up quickly in single file and board the school bus in an orderly fashion, without shoving.
- I board the school bus and disembark only at the designated stop.

While on the Bus

- I follow the bus driver's instructions at all times.
- I follow all safety rules and regulations. Any misbehaviour will be reported to the principal of the school or the designated person and will be dealt with accordingly.
- I remain seated until the bus comes to a complete stop.
- I keep books and parcels on my lap.
- I keep the central aisle clear at all times.
- I show the same courtesy, respect and obedience to the bus driver as I would to my parents and teachers.
- I refrain from distracting the bus driver with loud talking, screaming or unnecessary conversation.
- I help to maintain a clean bus.

- I respect other people's property; I am responsible for any damage I may cause.
- In case of a road emergency, I remain on the bus unless directed otherwise by the bus driver.
- I do not bring any animals or bulky articles on the bus.
- I ensure that skates or other potentially dangerous objects are equipped with protective guards and are carried in a protective bag, that I keep at my feet.
- I keep my arms, legs and head inside the bus at all times.
- I avoid throwing things and fighting.
- I refrain from smoking, swearing, shouting and spitting.

Getting off the Bus

- Before leaving the bus, I check that I have not forgotten any personal belongings.
- I avoid running while getting on or off the bus.
- When I must walk along side of the bus after climbing out, I stay at least 3 metres away from the wheels.
- I never stand or hang onto the back of the school bus when it moves off again.

- When walking in front of the bus, I keep at least 3 metres away from it so that the bus driver will see me; before crossing the rest of the road, I look in both directions, wait for the bus driver's signal, and then proceed with caution, while continuing to check for oncoming traffic.

STAND UP to bullying

Remember that you do not deserve to be bullied or harassed.

For those who are experiencing bullying

- Talk to an adult that you trust.
- Spend your time with friends who you can count on to support and stick up for you.
- Appear confident and let the person doing the bullying know that it is not okay.
- Stand up for yourself without being aggressive.

For those who are bullying others

- Talk to someone you trust who can help you find ways to have healthy relationships.
- Ask a friend to tell you if they notice if you start to bully others.
- You do not have to like everybody, but you do have to respect everybody.
- Challenge yourself to be more inclusive of others and to be a good friend.
- Everyone has power. Use yours in a positive way to help others, not hurt them.

No to cyberbullying

- Protect your personal information online—never give out your passwords, even to your closest friends.
- Before you send a text, ask yourself if you are ok if the whole world sees it because private messages and photos can go public.
- If someone is cyberbullying you, ask for help, find tips to help protect yourself at www.cybertip.ca and www.cyberbullying.ca, and always save any messages you receive as evidence.
- Be kind online. Do not post or pass on anything negative about another person.

For those who are witnessing bullying

- By getting help, you are part of the solution.
- If you see somebody who is being bullied, assess the situation; intervene if you feel safe.
- Don't laugh or cheer on bullying—refuse to go along with it.
- Talk to the person who has been bullied. Let them know that they do not deserve to be treated like that and show them that you care.

World Cleanup Day

Trash that is not thrown out can hurt plants and animals. A Community Clean-up is a great way to work together and take care of local areas such as a schoolyard or park.

With your friends

- 1 **Gather Your Team:** Rally your friends, classmates, and family members for safety, fun and more sets of eyes to spot litter!
- 2 **Safety First:** Wear gloves and closed-toe shoes.
- 3 **Equip Yourselves:** Bring trash bags, recycling bags, and grabbers.
- 4 **Sort It:** Separate recyclables like cans and bottles from regular trash.
- 5 **Snap a Picture:** Take a before and after photo of your clean-up site.

Managing Emotions

Managing emotions means learning to recognize what we feel in our heart and body. When we are angry, sad, or excited, we can breathe, talk, or draw to calm down. It's like a magical toolbox to help us feel better.

Managing Emotions

When you feel joy, share it with a friend — it makes everything even more beautiful.

Trivia

What uses more energy: heating or cooling?

Answer: Heating! But both can harm the Earth if we use too much. So, we should be careful about how much energy we use.

Eco-Friendly Gift Giving

Make your holiday season eco-friendly by thinking outside the box and giving gifts that are less harmful for the Earth!

Ideas

- 1 Host A Gift Swap:** Host a gift swap event at your school to exchange new or lightly used items.
- 2 Green Wrapping:** Use reusable bags, fabric, or newspapers instead of wrapping paper.
- 3 Do-It-Yourself:** Making your own gifts is a fun way to show you care and reduce waste.
- 4 Plants and Seeds:** Gifts like potted plants or seeds can bring nature indoors.

Stress Management

Stress is when your body feels worried, like when you are afraid of something or when you need to put in a lot of effort for a task. Your brain sends messages to your body to be ready to respond, but sometimes you must learn to calm down in order to feel better.

Earth Month

Earth Month is a great time to celebrate and care for the Earth! Let's come together to help the Earth and learn how even small actions can make big changes.

Tips

- Work Together:** Include your friends, family and classmates in your Earth Month actions!
- Dream Big:** From city-wide clean-ups to zero-waste events, think about ways you can help the Earth, your friends, and family.
- Get Creative:** Get creative by hosting an Upcycling Art Gallery or a Nature Poetry Slam!

Healthy Screen Use

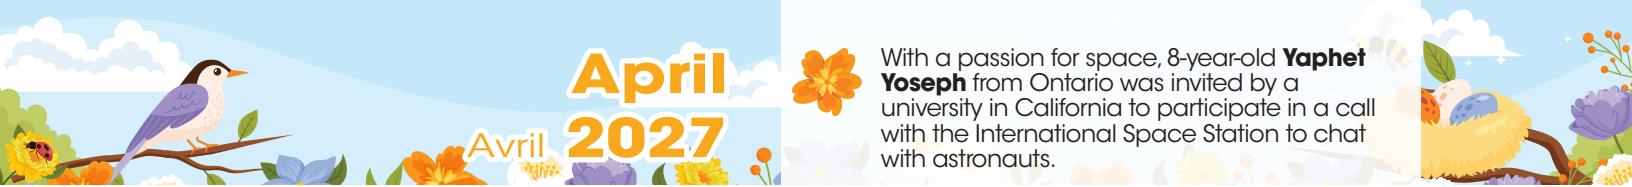

Screens are like candy: a little is delicious, but too much can give you a tummy ache! You can watch cartoons or play fun games, but only for a short time (like the length of one episode). After that, it's time to move, run, draw, or create amazing stories with your toys and friends!

Healthy Screen Use

Screens help you learn and laugh, but after one episode, take a break to play, move, or make up stories!

Did You Know?

Many people in Canada are spending less and less time outside, which can be harmful for our health. You can have fun outside by playing sports, being in nature, riding bikes, hiking, or using your imagination to play!

Music and Colours

NOTES	RESTS	TERMS RELATING TO VOLUME
whole note	whole rest	pp Pianissimo (very soft)
half note	half rest	p Piano (soft)
quarter note	quarter rest	f Forte (loud)
eighth note	eighth rest	ff Fortissimo (very loud)
sixteenth note	sixteenth rest	

OTHER SYMBOLS

# Sharp - Raises the note a half step and remains in effect the entire measure	Allegro Fast Bright Tempo
flat - Lowers the note a half step and remains in effect the entire measure	Andante Slow Walking Tempo
natural - Cancels the flat or the sharp in a measure	Legato Smooth, Flowing Sound
<< Crescendo - Gradually increase the volume	Moderato Moderate Tempo
>> Decrescendo - Gradually decrease the volume	

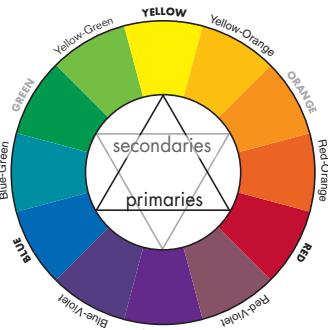

TERMS RELATING TO TEMPO

COLOUR WHEEL

The colour wheel describes the relationships between colours. It is a chart that shows how colours are related to each other.

PRIMARY COLOURS are basic and cannot be mixed from other elements. They are to colour what prime numbers are to mathematics. One can mix two primaries to get a secondary colour. You will notice that each secondary colour is bounded by two primaries. These are the components that one would mix to get that secondary colour.

SECONDARY COLOURS are orange, violet and green and are made by mixing two primary colours from either side of the colour wheel.

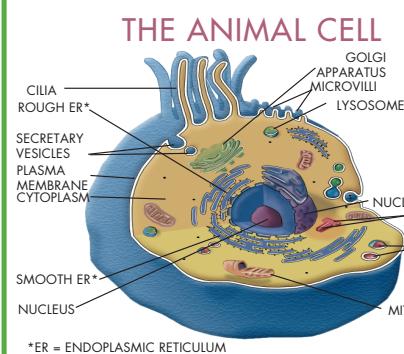

TERTIARY COLOURS are made by mixing a primary and a secondary colour together (i.e.: yellow+orange = yellow-orange or blue+green = blue-green).

COMPLEMENTARY COLOURS are opposite from each other. They contrast because they do not have any colours in common.

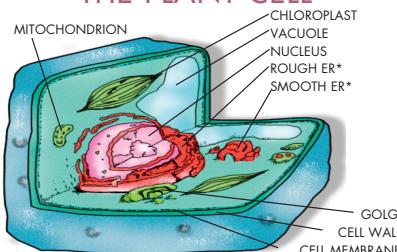

Orange is made by mixing red and yellow, so it will complement blue.

* On August 24, 2006, the International Astronomical Union (IAU) formally downgraded Pluto from an official planet to a dwarf planet (like Eris and Ceres).

Earth

The Earth is the solar system's fifth largest planet and the third in distance from the Sun. It spins from west to east around its polar axis. This rotation causes the alternation of day and night. As it rotates, the Earth also orbits around the Sun. This causes the change of seasons.

Age of the Earth:

approx. 4.5 billion years

Orbital speed:

107 218 km/h

Rotation speed:

1670 km/h

Equatorial circumference:

40 030 km

Mass:

5.97 X 10²⁴ kg

Surface area:

510 064 472 km²

Continental surface area:

149 500 000 km² (29.3%)

Oceanic surface area:

360 500 000 km² (70.7%)

Caring for the Earth

Everyone has a role to play in keeping our planet Earth healthy. It's a part you play every day. How do you play your part?

We have all heard of "Reduce, Reuse, Recycle." Let's look at what you can do and how it helps you play your part.

Reduce

Reduce the fuel you use by biking or walking instead of getting a drive.

Reduce the garbage you create by taking a litterless lunch. Use reusable containers for your sandwiches, snacks, and drinks. That way you won't have anything to throw away when you're done.

Reduce the paper you use by using both sides of every sheet.

I do my part to reduce by: _____

Reuse

Reuse plastic bags. Take a reusable bag, when you go to the store.

Give toys, books, and clothing that you no longer use to a charity, so other people can reuse them.

Reuse newspapers to protect tables when you are doing something messy. You can also make interesting wrapping paper from the coloured comics in your newspaper.

I do my part to reuse by: _____

Recycle

Recycle glass bottles, plastic bottles and jugs, aluminum and tin cans, paper and newspaper. Put them in a recycling bin instead of a garbage can.

I do my part to recycle by: _____

Did you know?

When you recycle a stack of newspaper that is one-metre high, you save an evergreen tree that has grown ten-metre tall.

You can rest on a plastic park bench made from recycled milk jugs and other plastic bottles.

When you recycle one aluminum can, you save enough energy to run your television for three hours.

Take action to protect the environment

On average, each Canadian produces every year over five tonnes of greenhouse gases. As the concentration of these gases increases in our atmosphere, they are causing average temperatures to rise and are contributing to air pollution and smog. For more information on climate change and how to reduce the production of greenhouse gases, visit the Government of Canada Climate Change web site at <https://www.canada.ca/en/services/environment/weather/climatechange.html>

Do your part to care for the Earth - Reduce, Reuse, and Recycle.
